

Hope Street Ministry

MEMBERSHIP AGREEMENT

Hope Street is the Greenhouse for People on 26th and Capitol. We are excited that you have chosen to join our community. As you enter in there are a few things we want you to know we deeply value as well as are committed to: Cultivate Hope in your life and the lives of our community, Protect from the outside toxic environment, and Build Community with one another and with Jesus. Joining this community, means you too are committed to the same.

I am committed to cultivating hope in my own life and my community.

I am committed to protecting myself and others from the toxic environments and behaviors.

I am committed to building community which could look like attending classes, events, getting to know my neighbors and growing alongside others.

During your time at Hope Street we will explore ways you can learn and develop new habits which will help you grow and flourish. Along the way we will provide you with opportunities that allow you to reach your goals. We choose to walk alongside you as you discover what is best for you. One of the ways we measure your success along the way is through our Flourishing Metric. This is a monthly reflection piece meant to help you explore and celebrate. Explore where you would still like to develop and celebrate what you have accomplished. Growth is never linear and it is important for us to acknowledge each step along the way. For starters, we want you to know you are BELOVED. That is how we see you, and that is how your Father in heaven sees you. We look forward to helping you see how you belong in His family.

If you should be asked to leave (relapse or other toxic reason) you will have 30 minutes to grab some of your belongings, turn in your keys, and you will be walked out of the building by Hope Street staff. You will have one week from that day to remove the rest of your belongings from the building. Items left after a week will be disposed of as staff sees fit.

Welcome to our community! We hope to see you flourish in ways that neither of us could ever imagine. If what you committed to above changes, we understand that you may choose to leave. In the same way if you do not honor those commitments, a consequence may be that your membership will be terminated.
